

Comments and Recommendations

Basic School

Comments:

1. The proposed Basic School represents a consolidation of the Basic Training, Management Training, and Orientation and Briefing Divisions, with some incidental reassignment of courses to conform to the new School concept.
2. The four School structure for OTR envisions the Basic School as having responsibility generally, for basic orientation type courses appropriate for all Agency personnel, for intermediate, advanced and specialized training offered for administrative, clerical and supervisory personnel of the Agency, and for specialized orientations and briefings of groups and individuals.
3. The proposed T/O for this School was arrived at by calculating the requirements of its courses and activities and is believed to be realistic and conservative.

Recommendations: None.
